Flying Cars

Thursday, March 12th, 2009 - Coming Soon to a Garage Near You! by Vernon Porter, Ph.D.

Dr. Porter will be presenting a short summary of flying cars, past, present and imaginary. The principles of design and guiding forces that shape the construction of their vehicle, the Chaparral, will be discussed. Some events from the 3 years - from models to test- will be highlighted. Current status and progress will be augmented by photos from the shop.

Inventor, entrepreneur, scientist. Dr. Porter has a technical background with over 40 years of R & D experience. This was primarily at Texas Instruments, but various other companies have benefited from his consulting : Alcatel, Keeblers, and many others. His patented inventions are extremely varied and include a "photonic bullet", Oil Well drilling Fluid, Laser Photolithographic Writer, Microwave chemical sensor, etc. Currently he takes assignments as an industrial forensic investigator and expert witness. His main project is the completion of the flying car.
